February, 2010

Dear Parents/Guardians;

I am pleased to present you with registration and required forms for the 2010 - 2011 school year. We have once again tried to keep tuition at a reasonable rate. The minimal increases you see will allow us to continue to offer many special programs held here at St. Patrick. I want to thank you for choosing our school, for valuing Catholic Education and for allowing us to be blessed with your children. I have outlined important information for you below. Please complete and return all forms to the school office. We are looking forward to and planning another great year at St. Patrick Catholic School.

**Application Information:** The application process is not complete until all fees and forms are received by the school office. To secure a spot for your child both the Registration Fee and ALL documents must be turned in. Incomplete applications cannot be accepted.

**Financial Assistance:** (Grades K – 8 )Families seeking financial assistance for the next school year will need to apply through the FACTS Grant and Aide Assessment Program. **This program will be used for all forms of aide received at our school. If you think that you will need any type of financial assistance during the next school year, please call the school office to request the FACTS application.** We would be glad to assist you through the simple application process. Only families that have applied through FACTS will be granted any type of aide.

God has blessed us tremendously this year and we look forward to a new and exciting year in 2010-2011. I look forward to the next school year and accomplishing even more. It is my prayer that God will bless all members of St. Patrick School Community with another year of His grace.

Sincerely,  
Sister Veronica Visceglia, SSND  
Principal
